# FOREWORD

Kenya's National documentary heritage is rich, diverse and very dynamic. This diversity constitutes a national asset that has a bearing on the development process in this country. This dynamic environment which is as a result of political, economic, socio-cultural and technological changes has necessitated the need for us to review our strategic position as the National library of Kenya.

In recent years, libraries and information centres in Africa have witnessed a radical transformation which has heralded both opportunities and challenges in the creation, processing, storage, dissemination and management of information.

This strategic plan is aligned with the overall thrust of Kenya's development as defined in the Vision 2030 and the Constitution of Kenya (2010). Taking cognizance of these developments at both National and international levels, knls has developed this new strategic plan in conformity with new and evolving policies while taking advantage of current and emerging opportunities in the information industry. This plan is aimed at positioning knls strategically to provide relevant services that are need-driven while serving as a critical link between all the three pillars of Vision 2030.

This plan will serve as a vehicle for achieving the organization's objectives, functions and mandate. The successful implementation of this plan will hinge on motivated leadership, hard work, sacrifice, determination and creation of strategic partnerships and linkages.

I am confident that the knls community will live up to these ideals in order actively contribute to the achievement of a knowledge driven economy

**Silas K. Kobia**  
Chairman

# ACKNOWLEDGEMENT

The development of this strategic plan was as a result of critical synthesis and integration of the Board's mandate and the overarching vision of Kenya's development blue print. It has identified specific areas of intervention for the next five years.

Creativity and innovation is the cornerstone that has guided the thought process during the development process of this plan. This is with a view to adopt a proactive approach in service delivery by integrating activities that have the ability to stimulate interest in reading for fun, leisure and development.

It is indeed a product of collaborative effort by our stakeholders and continuous feedback from both our internal and external publics. This was done to ensure that it incorporates constructive views and suggestions from all key stakeholders, build on our current gains and exploit the available opportunities and resources.

It is envisaged that, through this strategy, the interventions proposed will play a critical role in improving access to relevant information, promoting a sustainable reading culture and enhancing the preservation of the National documentary heritage.

We appreciate the effort of all stakeholders who participated in the development of this strategic plan. Special gratitude go to the Government through the Ministry of National Heritage and Culture for the continued support, the Board of Directors for guidance throughout the process, Management and staff for the invaluable input as well as Adventure educator consultants for steering the formulation process.

It is my sincere hope that the aspirations of both knls and stakeholders will be achieved within this plan period.

# CHAPTER ONE

## INTRODUCTION

### 1.1 Knowledge as a driver of economy

The term “knowledge-based economy” results from a fuller recognition of the role of knowledge and technology in economic growth. Knowledge, as embodied in human beings (as “human capital”) and in technology, has always been central to economic development. But only over the last few years has its relative importance been recognized, just as that importance is growing. Growing economies are more strongly dependent on the production, distribution and use of knowledge than ever before.

Knowledge is now recognized as the driver of productivity and economic growth, leading to a new focus on the role of information, technology and learning in economic performance.

Vision 2030 is anchored on three key pillars: Economic, Social and Political. A basic evaluation of the components of these pillars indicates that information is the cornerstone upon which this plan is anchored. The Vision further recognizes the role of science, technology and innovation (STI) in a modern economy, in which new knowledge plays a critical role in wealth creation, social welfare and international competitiveness. Kenya intends to become a knowledge led economy wherein, the creation, adaptation and use of knowledge will be among the most critical factors for rapid economic growth.

The three main drivers of a knowledge economy are: Globalization; Technological advances and ICT; Information and knowledge

A knowledge-based economy places great importance on the diffusion and use of information and knowledge as well as its creation. The determinants of success of enterprises, and of national economies as a whole, is ever more reliant upon their effectiveness in gathering and utilizing knowledge.

COK 2010 recognizes libraries as vehicles for cultural and national expression. Therefore it is critical that as we reshape our educational,

technological and economic policies, the society needs to more intentionally call upon the trusted, welcoming and content rich settings of libraries to support the national development agenda. Citizens are expected to use information in complex ways and to maintain and enhance their literacy skills for growing their imagination to support creativity and innovation.

### 1.2 The role of knls in a knowledge driven economy

IFLA recognizes the role of public libraries as that of socially committed enablers for the knowledge economy. With this in mind, knls is keen to widen its access and transform public libraries into focal points for communities, whilst at the same time reaching out more effectively to those who may not feel the library provides a suitable offering for them. In addition, knls has a responsibility to promote community-wide information literacy, so as to enable intelligent and effective use of digital as well as print resources

Information enables people to participate fully in development as well as monitoring and evaluation of various development programmes. To this end, knls through its vast network will create strategic partnerships with its development partners to provide relevant information through appropriate technologies.

### 1.3 Background of knls

Kenya National Library Service (knls) Board is a state corporation under the Ministry of State for National Heritage and Culture, which is for the time being responsible for the corporation. The Board was established by an Act of Parliament Cap 225 of the Laws of Kenya (1965). The current Act mandates the Board to: promote, establish, equip, manage, maintain and develop libraries in Kenya. To date, a network of 58 branch libraries have been established, with others coming up in different parts of the country.

The Act gives the Board responsibility to manage both the National Library of Kenya and the Public Library System. Under the National Library of Kenya, the Board's key function is to preserve the national documentary heritage and to produce the Kenya national bibliography. Under the Public Library System, the principal objective of the Board is to provide library and information services to the Kenyan publics with a view to promoting a positive and sustained reading culture. The Board recognizes that information is a basic commodity in everyone's life, as it directly responds to their needs, through individual and community empowerment.

## 1.4 Core Functions of the Board

The core functions as stipulated in the Act Cap 225 are to:

- Acquire books and information sources produced in and outside Kenya and such other materials for a comprehensive National Library
- Preserve and conserve the national imprint for reference and research and maintain the National Bibliographic Control through issuance of the ISBN, publication of the Kenya National Bibliography and Kenya Periodicals Directory.
- Promote, establish, equip, manage and maintain Libraries in Kenya as a National Library Service;
- Plan and Coordinate library, documentation and related services in Kenya
- Advise the Government, local authorities and other public bodies on all matters relating to library, documentation and related services.
- Provide facilities for the study of, and for training in the principles, procedures, and techniques of librarianship and such other related subjects as the Board may determine
- Sponsor, arrange or provide facilities for conferences and seminars for discussion on matters in connection with library and related services

- Carry out and encourage research in the development of library and related services
- Stimulate Public interest in books and promote information literacy for knowledge, information and leisure;

## 1.5 Governance Structure

In discharging its role, knls is guided by the Board Act Cap 225, State Corporations Act Cap 446 and other appropriate policy direction issued by the government from time to time through the Ministry for the time being in charge of libraries (currently the Ministry of State for National Heritage and Culture).

The Board of Directors supervises the operations and management of knls and ensures that the interests of the organization and all its stakeholders are promoted and protected. In discharging this duty, the Board delegates the day-to-day running of the organization to the Chief Executive Officer. The Board is guided by knls Board Charter in all its undertakings.

knls has a functional organizational structure that has been responsible for the dynamic growth witnessed in the past years. However, continuous review is necessary to ensure that relevance, responsibility and performance are achieved as well as creating opportunities for career growth. A major review was undertaken in 2011 that recommended new staffing levels, revision of required skills and competencies as well as remuneration.

To guide the implementation of the constitution in relation to library development and operations, development of a libraries policy is in progress. The policy will also play a central role in guiding the establishment of a new legislation to replace the current knls Board Act Cap 225. It will also ensure coordinated development of the library sector; and provide guidance to the National Library and the Public Library development.

## 1.6 Review of the previous strategic plan

In the last five years, 2008-2012, knls was guided by a strategic plan whose Vision was:

"A National centre of excellence that preserves and disseminates information for knowledge and creativity." This was driven by the Mission that strongly focused on utilization of technology as an emerging issue in information management and knowledge source.

In addition to the Board taking cognizance of key Government policies particularly the Poverty Reduction Strategy Paper (PRSP), the Economic Recovery Strategy for Employment and Wealth Creation (2003-2007), and the National Development Plans (NDP) emphasized the need for efficiency and better management in the utilization of public resources to enable the Government achieve its strategic objectives of growth, productivity and improvement in service delivery. The same objectives are emphasized in the Government's current strategy - Kenya Vision 2030.

Kenya Vision 2030 is an economic blueprint whose aim is to transform the Country into a modern, globally competitive, middle income country, offering a high quality life for its citizens by the year 2030. To achieve this goal, the Government is putting in place measures that will raise the national GDP growth rate from the current 6% to 10% by 2012; create more employment opportunities; and bring more equitable development in all regions of the Country.

The First Medium Term Plan (MTP) of the Vision 2030 identified the key policy actions and reforms as well as programmes and projects that the Government intended to implement in the period 2008 – 2012 in order to achieve set national targets. In order to achieve these targets, the Government also identified six priority sectors namely tourism, agriculture, livestock and fishing, wholesale and retail trade, manufacturing, business process outsourcing (BPO) and financial services in which it intends to concentrate its efforts and resources.

The Ministry of State for National Heritage and Culture under whose jurisdiction knls falls also had identified flagship projects and specific programmes in relation to Vision 2030. The knls Board was to contribute to this through information development, dissemination and knowledge management using its national and public library services.

## 1.7 Development of New Strategic Plan 2012/13-2016/17

While knls has achieved significant milestones in the last 5 years guided by the ended strategic plan, there is new thinking and emergence of new realities especially with the enactment and promulgation of constitution 2010 and the establishment of two levels of government. All state agencies are required to devolve their operations in the spirit of self determination and involvement of communities in their own development.

knls has articulated the widest engagement with the county government in an effort to play a pivotal role of supporting information sharing for the empowerment of communities. In particular, knls will provide the city, municipal and county rostrums for respective leaders to articulate visions and directions for their jurisdictions. This will ensure direct link with key stakeholders at the two levels of government.

The process of developing this strategic plan was not only participatory but inclusive, where top management, departmental heads and the Board of Directors were involved. The wider stakeholders were involved too and their views and comments incorporated. This plan provides a blueprint for stimulating and enhancing reading, knowledge sharing and empowerment.

Public libraries around the world are facing unprecedented challenges, and this turbulent environment offers a unique opportunity for them to redefine their role and demonstrate their value in the society.

# CHAPTER TWO

## INSTITUTIONAL ANALYSIS

### 2.1 Key departments

knls has 13 departments<sup>1</sup> and staff complement of 820 but with 675 in post. It is divided into Headquarters, National Library, Public and Communities Libraries each of which continue to play their roles within the stipulated mandate.

However, knls still continues to operate under several Acts which require review and consolidation. Management hopes to initiate review of the Acts and completion of a new national libraries policy framework that will incorporate the devolved government and benchmark with best global practices.

Skills growth for staff has also been upscaled with trainings carried out throughout the duration period. Staff were sponsored to undertake PhDs, Masters, Bachelor Degrees and other professional courses like CPA, Librarianship and Management. Coupled with continuous improvement of staff work environment and assessment of employee satisfaction, knls has continued to upscale staff motivation still with room for further improvement.

### 2.2 Network growth

knls has been instrumental in developing libraries in various parts of the country. Nationally there are 58<sup>2</sup> Libraries comprised of 8 Provincial, 8 District and 41 Community Libraries. Development of these libraries has been possible with the support of Government grants, development partners and community participation.

The last five years have witnessed establishment of thirteen libraries, modernization of fifteen libraries through automation and refurbishment of ten others across the country. Buruburu Library for instance is one of the automated branches with ongoing digitization aimed at availing e-learning materials using a platform that can be

shared and accessed by other branches. The library not only has one of the most luxurious children reading areas but houses other service providers for revenue generation.

Nakuru branch also moved to new premises with ultramodern computer network and spacious reading area. It is one of the iconic structures in the County of Nakuru. Narok Library is at advanced stages of completion with the building hoped to open in 2012

### 2.3 Growth in customer base

knls has witnessed tremendous growth in its customer base over the past years with adult usage rising from 1.4 million in 2008 to 4.5 million in 2011 while that of children rose from 1.4 million to 3.9 million in the same period.

This can be attributed to growth and refurbishment of library facilities, increased awareness on importance and use of public libraries, acquisition of relevant /current information resources and automation of library operations and services.

Service offerings were diversified to include provision of specialized information resources in cross-cutting and topical issues like HIV & AIDS, health and agriculture. Other reading promotion initiatives include: children reading tents, book clubs, open days during holidays and other localized initiatives. Librarians also engaged in advocacy at their respective branches leading to heightened awareness.

Partnership with various like-minded institutions at all levels has continued to add value to customers through introduction of targeted projects. Education tours organized by German Library Association, attendance of conferences and workshops like the World Library and Information Congress and sponsorship of staff to

<sup>1</sup> A summary of the departments can be viewed from the organogram at the appendix of this plan.

<sup>2</sup> A list of the Libraries can be obtained from any of the knls branch

participate in the International Network of Emerging Library Innovators funded by Bill and Melinda Gates Foundation exposed staff to global library practices and standards. Other corporations and non-state actors have continued to support libraries with some supporting payment of membership fees for certain segments of our customers within their areas of operation.

## 2.4 Performance Management

knls has continued to perform well in relation to other Service State corporations and it posted a record performance in 2009 by emerging position 1 in its respective category. The table below indicates knls performance over the last three years.

CYCLE	COMPOSITE SCORE	IMPROVEMENT %		ALL STATE CORPORATIONS		SERVICE STATE CORPORATIONS
		Position	Total No.	Position	Total No.	
2008/2009	2.2772	-	23	139	5	38
2009/2010	2.0892	8.26%	16	162	1	46
2010/2011	1.9635	6.03%	11	178	3	50

A culture of quality and excellence has been entrenched without which such record performances would not be achieved. In 2009, knls achieved ISO 9001:2008 certification having implemented TQM for a couple of years. Staff have been trained and inducted in the two programmes to ensure consistency and innovativeness in provision of quality service in tandem with core values of knls.

ISO is customer focused and aims at ensuring effective delivery of service to customers through continual improvement of the quality management system (QMS). In order to track customer satisfaction, knls undertakes annual surveys to ascertain satisfaction levels as well as identify gaps that inform strategy. Customer satisfaction index rose from 66.9% in 2010 to 71.8% in 2011.

knls has continued to embrace and maintain international library standards like UNESCO Public Libraries and ISBN. In 2011, knls signed a contract to serve as the national agency for International Standard Music Number (ISMN). Regionally, knls has continued to provide leadership in librarianship occupying a strong presence in Africa, taking 3rd position after South Africa and Egypt. knls braces herself to continue providing advisory services for the local and Africa market on a consultancy basis as well as partnering with respective professional bodies and associations like Kenya Library Association (KLA), Kenya Library and Information

Service Consortium (KLISC), Standing Conference for East, Central and South African Libraries (SCECSAL) among others.

## 2.5 Development of knls Headquarters and National Library

One of the most profound achievements of knls in the last strategic period was the conceptualization and initiation of construction of knls headquarters and National Library at Community area.

The project envisages construction of an 8 storeyed building with an ultra-modern national library, modern conference facilities, auditoriums, open reading spaces, meeting rooms and a commercial wing that is expected to generate revenue for the Board. It estimated to cost Kshs. 2 billion and be completed by 2017.

The project will embrace green construction technologies and is benchmarked with the best libraries globally.

knls hopes to undertake similar projects across the country with key priority being construction of County libraries at the respective headquarters and refurbishment of already existing ones. It is envisaged that county leadership will make libraries a county meeting place in conformity with best practices and traditions in advanced economies.

## CHAPTER THREE

### SITUATIONAL ANALYSIS

#### 3.1 Internal and external environment analysis

Kenya is going through a challenging constitutional phase with the enactments and promulgation of constitution 2010, which among other things established two levels of governments; National and County. It also requires that all government institutions devolve their services to the two levels in the spirit of ensuring communities participation in their own development and determination.

In view of this, the situational analysis explores the Political, Social, Economic, Technological, Legal and Environmental factors (PESTEL) that will influence knls as well as determine the expectations of the various stakeholders. Finally knls undertakes an honest Strengths and Weaknesses analysis that relates to the current status and identified likely future Opportunities and possible Threats that will have to be dealt with during the plan period.

#### 3.2 Pestel analysis

### 3.4 Swot analysis

SWOT is a powerful tool in strategic management that helps organizations realize their potential as well as identify areas of weaknesses that need to be addressed. Strengths are built on to propel the organization while taking cognizance of threats which have to be mitigated or managed.

Below is a summary SWOT for knls:

AREA	CONCERNS
Strengths	<ul style="list-style-type: none"> <li>• The legal mandate</li> <li>• Policies and procedures in practice</li> <li>• Diverse Clientele</li> <li>• Large volume of Information materials in different formats</li> <li>• Legal depository center</li> <li>• Countrywide network of libraries</li> <li>• Certified Quality Management system- (ISO)</li> <li>• Assured Government Funding</li> <li>• Available land for development countrywide</li> <li>• Supportive leadership</li> <li>• Existing strategic partnerships</li> </ul>
Weaknesses	<ul style="list-style-type: none"> <li>• Limited ICT budgetary allocation leading into low automation levels</li> <li>• Inadequate Technical expertise – e.g. Librarianship , ICT, fundraising/ resource mobilization, web management</li> <li>• Passive organizational culture, employee apathy</li> <li>• Inadequate reading areas</li> <li>• Stagnated budget from the exchequer</li> <li>• Inadequate creativity and innovation</li> <li>• Resistance to change</li> <li>• Lack of research, consultancy and development function</li> </ul>
Opportunities	<ul style="list-style-type: none"> <li>• Provision for training and certification of library professionals – (work with stakeholders - e.g. KLA)</li> <li>• Development and review of library curriculums</li> <li>• Exchange Programs – Swap</li> <li>• Sponsor, arrange or provide facilities for conferences and seminars for discussion of matters in connection with library and related services</li> <li>• Build, preserve and provide digital contents</li> <li>• Provision of research, consultancy and development services</li> <li>• Digitization, cataloguing, abstracting and indexing of records</li> <li>• Provide bibliographical and reference service</li> <li>• Use of technology to bridge digital divide and increase library services accessibility – align ICT with organization strategy</li> <li>• Devolved Government Structure – (accelerate establishment of libraries at the County level)</li> <li>• Comprehensive master plan for establishment of public libraries</li> <li>• Increased growth in knowledge based economy – (provision of relevant information)               <ul style="list-style-type: none"> <li>- Establish more libraries</li> <li>- 3 pillars of vision 2030</li> <li>- Digital village</li> <li>- Install simulators in specific libraries for real life learning (for special projects)</li> </ul> </li> <li>• Libraries connects communities to information sources for economic, political and social empowerment</li> </ul>

## Threats

- Uncertainty of devolved Government structure – (staffing issues, low prioritization of issues)
  - knls to determine the position that it shall take
  - knls to develop policies
- Poor reading culture and/or environment
  - Who is responsible for driving membership?
  - Integrate technology in delivery of services
  - Marketing
- Non compliance with Legal Depository Act
  - knls to look for friendlier/innovative ways of winning publishers
  - knls to issue certificate of compliance to publishers
  - knls to contact publishers periodically to receive titles published
  - Publishers to account for ISBN numbers issued
- Propose amendment of the Legal Depository Act
- Diminishing government budgetary allocation
  - knls to align its programs with the available funds
- Under developed local book industry (quality, appealing, new titles)
- Possible litigations - (staff issues, copyright issues, environmental risks)
- Disaster threats to assets
- Obsolescence of equipment and assets due to rapid change in technologies
- Brain drain and high staff turnover

## CHAPTER FOUR

# STRATEGIC ANALYSIS

### 4.1 Introduction

After thorough analysis of the changing and emerging opportunities for Kenya National Library Service, there was need to review and articulate the Vision, Mission and Core Values from the previous plan.

This was to ensure a strong and motivating Vision, an all encompassing Mission and an easier to remember Values - acronym "PICK".

### 4.2 Vision

The hub of information and knowledge for empowerment

### 4.3 Mission

To enable access to information for knowledge and transformation of livelihoods

### 4.4 Core Values

- **P**assion
- **I**nnovation
- **C**ustomer centered
- **K**nowledge driven

### 4.5 Strategic Objectives

Derived from the Mission and the Mandate of knls Board, the following 5 (Five) strategic objectives were drawn;

1. To improve the reading culture among the Kenyan people through informed and targeted intervention programs
2. To increase access to information through development, equipping and maintenance of libraries
3. To enhance availability of information resources through utilization of modern technologies and strategic partnerships
4. To enhance collection and preservation of national bibliographic information through legal deposit copies and other sources
5. To strengthen institutional capacity by upholding responsible corporate governance, resource mobilization and human capital development.

## 4.6 Specific Objectives

Each of the strategic objectives has several specific objectives as outlined below:

Strategic objective	Specific objectives
To improve the reading culture among the Kenyan people through informed and targeted intervention programs	<ol style="list-style-type: none"> <li>1. To carry out a survey to ascertain the level of reading culture in Kenya</li> <li>2. To carry out reading promotion programs</li> <li>3. To develop new library products targeting specific market segments</li> <li>4. To create awareness on the information services and products available</li> <li>5. To roll out knls brand implementation program</li> </ol>
To increase access to information through development, equipping and maintenance of libraries	<ol style="list-style-type: none"> <li>1. To establish and equip libraries in Counties</li> <li>2. To upgrade and enhance maintenance of existing Library facilities</li> <li>3. To complete the construction of National Library of Kenya and knls headquarters</li> <li>4. To Establish special library projects</li> <li>5. To Mainstream access to information for persons with disabilities</li> </ol>
To enhance availability of information resources through utilization of modern technologies and strategic partnerships	<ol style="list-style-type: none"> <li>1. To increase library collection and access to relevant and current information materials in various formats</li> <li>2. To increase automation of knls operations</li> <li>3. To create a virtual library</li> </ol>
To enhance collection and preservation of national bibliographic information through legal deposit copies and other sources	<ol style="list-style-type: none"> <li>1. To improve collection of legal deposit copies and other publications in the country</li> <li>2. To ensure preservation of the national documentary heritage</li> <li>3. To provide industry leadership and coordination of library standards</li> <li>4. To undertake research in development of library and related services</li> </ol>
To strengthen institutional capacity by upholding responsible corporate governance, resource mobilization and human capital development	<ol style="list-style-type: none"> <li>1. To ensure appropriate staffing</li> <li>2. To enhance human capital development</li> <li>3. To improve performance management and reward/sanction system</li> <li>4. To improve employee relations, work environment and wellness</li> <li>5. To review policies and procedures</li> <li>6. To strengthen internal controls systems</li> <li>7. To enhance organizational risk management</li> <li>8. To enhance revenue generation capacity</li> <li>9. To enhance resource mobilization</li> <li>10. To Improve transport service</li> <li>11. To improve supply chain management</li> <li>12. To ensure good corporate governance</li> <li>13. To ensure effective implementation of Strategic Plan</li> <li>14. To ensure development of a new strategic plan 2017-2022</li> </ol>

## CHAPTER FIVE

# RESOURCE MOBILIZATION & IMPLEMENTATION PLAN STRATEGY

### 5.1 Organizational Strategic Orientation

knls Board is a state agency and receives government funds from exchequer allocation. However, the plan seeks to diversify revenue sources in tandem with government strategy of ensuring an inclusive approach to development support and self sustainability. This is also in line with the governments' broad-based Wealth Creation strategy and Vision 2030.

The period will see increased demand for infrastructure development especially County Libraries as well as refurbishment of the current libraries requiring major repairs and expansion works. The construction of the National Library

of Kenya and knls headquarters as well as the heightened investment in ICT infrastructure to support automation will require huge investment that is likely to have an effect on the capital account making it high and above the usual funding levels.

In this regard, there is necessity to increase funding by government as well as involvement of development partners, initiation of Private Public Partnerships including identification of any viable income generating streams within the mandate of the Board.

To meet the anticipated demand, knls Board will use the following approaches for increased resource mobilization and funding of the strategic plan;

Source of funds	Strategy for resourcing
Government	<ul style="list-style-type: none"> <li>• Lobby Treasury for increased funding</li> <li>• Lobby MPs, relevant Parliamentary Committees, Senate and Governors to allocate resources to Library and development of Libraries in various jurisdictions</li> </ul>
Development Partners	<ul style="list-style-type: none"> <li>• Initiate strategic relationships with development partners in support of various initiatives especially in ICT and other capital development</li> <li>• Undertake development of quality proposals for funding</li> <li>• Seek government- guaranteed lines of credit</li> </ul>
Public Private Partnerships	<ul style="list-style-type: none"> <li>• Identify and engage with investors interested in supporting infrastructure development especially special projects</li> </ul>
Community	<ul style="list-style-type: none"> <li>• Mobilise communities to partner in development of libraries within their areas</li> <li>• Lobby for allocation of CDF and other devolved funds towards library projects</li> </ul>
Investments	<ul style="list-style-type: none"> <li>• Identify viable investment opportunities for divestiture eg establishment of bookshops (Article 8, Cap 225).</li> <li>• Invest in short-term instruments approved by government</li> </ul>

Source of funds	Strategy for resourcing
Members	<ul style="list-style-type: none"> <li>Upscale the recruitment of members and library users</li> <li>Review and increase the library membership rates</li> <li>Provide and optimize facilities for conferences and seminars</li> <li>Strengthen consultancy services for library and librarianship practice locally and regionally</li> <li>Establish a training programme for librarians for continued education and capacity development</li> </ul>

knls will establish an investment and revenue improvement strategy that will ensure increased self sustainability.

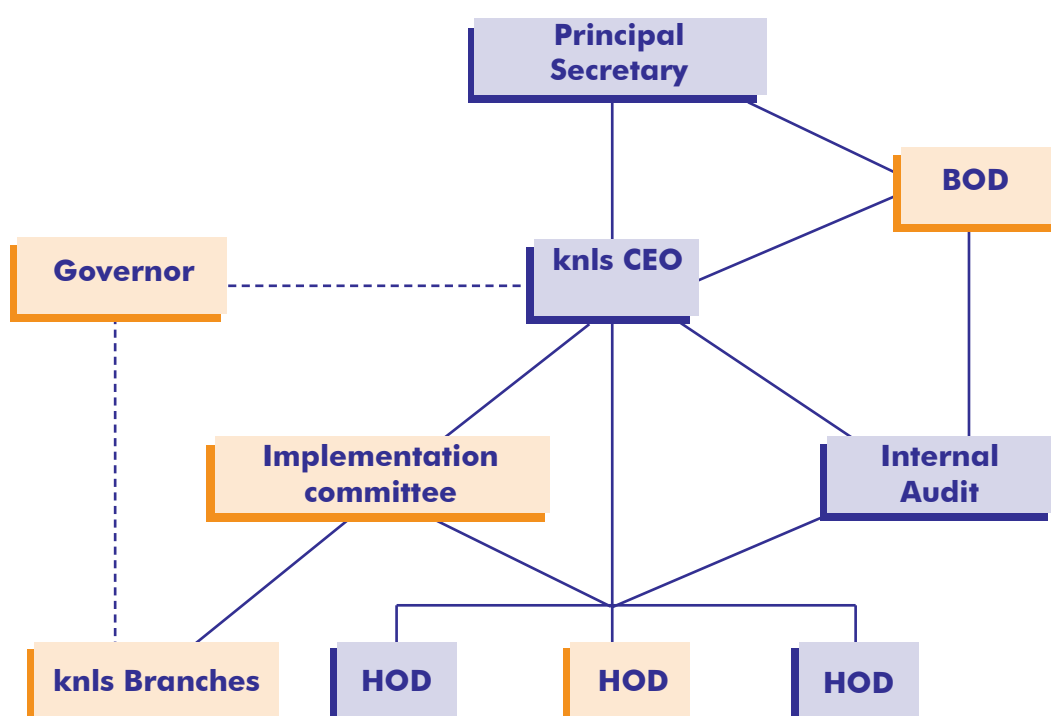

## 5.2 Strategic plan implementation mechanism

It has been observed that 90% of strategic plans fail due to lack of a strategy for implementation. To ensure effective implementation;

- knls will adopt a comprehensive implementation programme that will involve awareness creation to all staff for effective cascading of the plan
- Annual plans will be developed and reviews carried out to ensure adherence to strategic plan. This is in tandem with ISO and other Quality Management standards and practice.

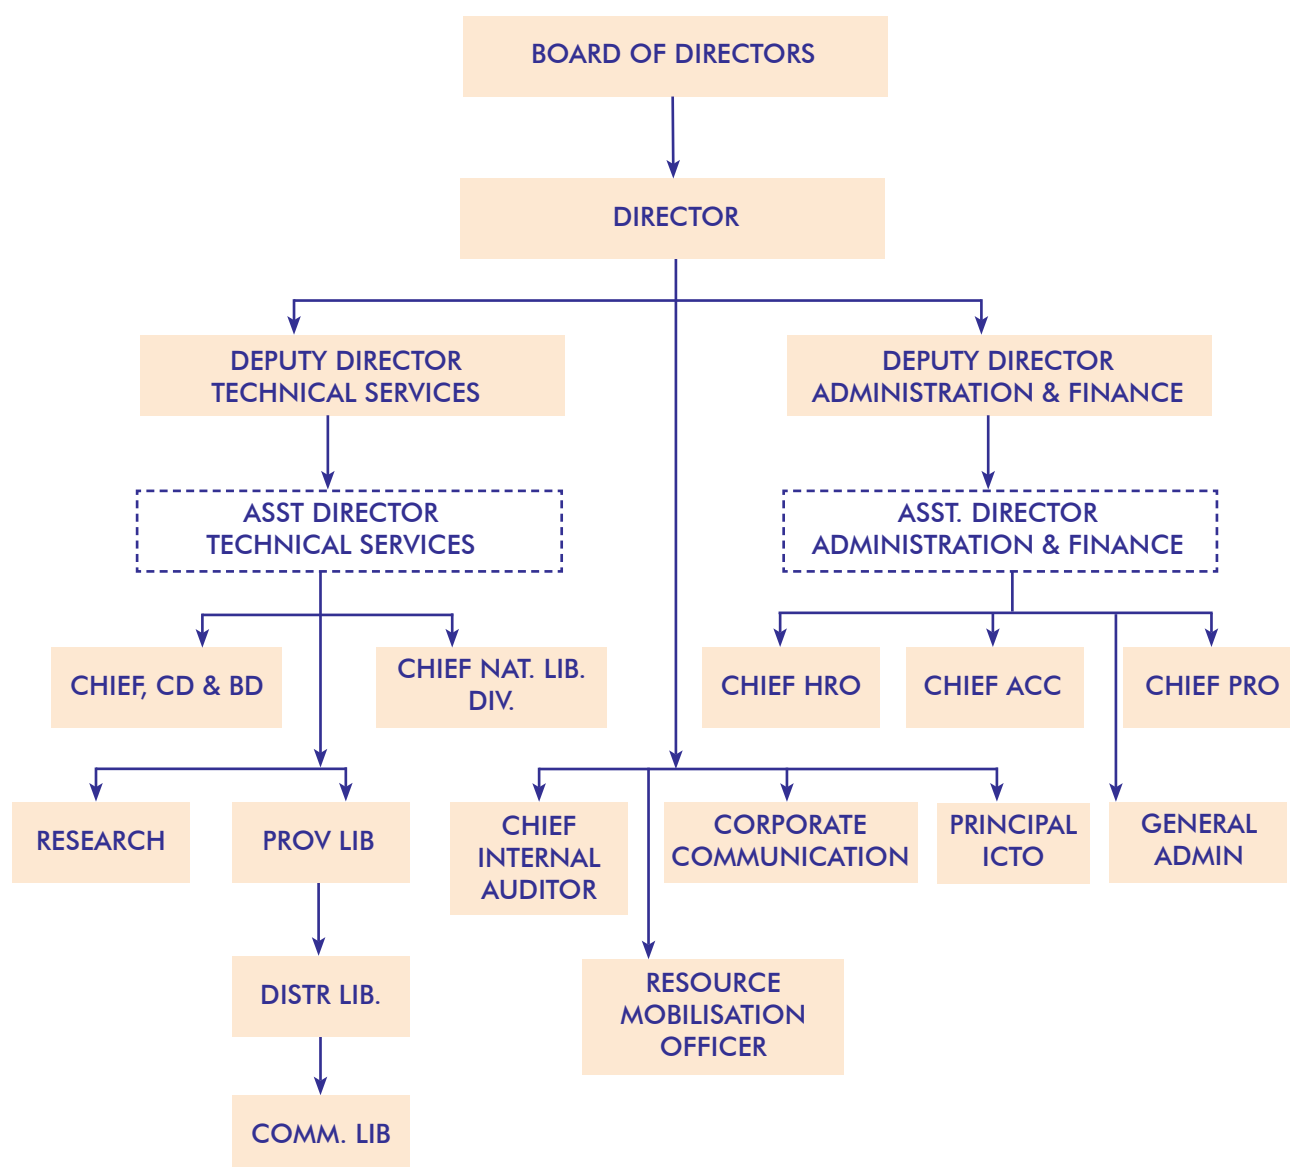

- Targets will be developed based on the strategic plan
- An ad hoc committee will be established to monitor implementation of strategic plan
- There will be preparation and submission of relevant monthly, quarterly and annual reports based on the various functions and informed by best practice.
- The Board will also undertake a mid-term review of the strategic plan to ensure alignment to government's Second-term Medium term development plan on Vision 2030
- An end of term review will be undertaken to not only determine success but also lessons learnt
- The strategic plan and relevant targets will be linked to the Performance Contracting targets and synchronized for coherence
